Back-to-School Campaign: Charity Begins at Home!

Dear Supporters,

We are thrilled to announce our latest campaign, *Charity Begins at Home*, running from October 2024 to March 2025! This year's back-to-school initiative has a special twist. Instead of traditional donations, we're encouraging each capable member of society to personally sponsor a child or children from their own family or community. By directly supporting a child's educational needs, whether it's with school supplies, uniforms, or tuition. You become an advocate for change, starting within your own circle.

How You Can Participate:

- 1. Pick a Child:** Choose a child or children in your family or neighborhood in need of educational support.

2. Provide Assistance: Help with school fees, uniforms, books, or any educational materials they require.

3. Share Your Story: Share your experience with us on social media using #CharityBeginsAtHome to inspire others.

Why It Matters:

At HECF, we believe that everyone can make a difference, starting from home. By focusing on the children closest to us, we can create a ripple effect, where families and communities come together to support education, ensuring no child is left behind.

Thank you for being a part of this life-changing initiative. Together, let's empower the next generation through education, one child at a time.
